On Saturday, May 30th, I will be at the fairgrounds in hopes to help out anyone looking to practice Mid-State Tryouts patterns. I will have patterns there available for anyone that attends and will assist anyone that wants help with the patterns as well. This is not just for kids that want to try-out for team, it is for anyone that is just interested in getting help in the above events. Even though I split it up into two sessions, you are more than welcome to spend the entire day. You are not limited to one session. I just wanted to give the opportunity for two sessions in case anyone could not make it in the morning or the afternoon. Please take this opportunity to help further yourself and hopefully in the end the Mid-States team. I did this for an evening last year and I felt it was very beneficial to everyone that came and it helped them in not only try-outs but also the team tournament. I am always willing to help anyone that asks. If you have any questions or concerns, give me a call at 260-343-8119 and I will be more than glad to help you out.

Thanks,

Shelby
